Press release

Jowat to showcase newest PUR highlights at LIGNA 2019

Detmold, 02 April 2019 – On the occasion of its 100th anniversary, the adhesives specialist from Detmold will be presenting real PUR highlights at this year's LIGNA – a comprehensive range of monomer-reduced PUR hot melts for the wood and furniture industry, and a complete series of certified PUR prepolymer adhesives for load-bearing glulam.

At this year's LIGNA trade fair, Jowat will be focusing on PUR hot melt adhesives for the wood and furniture industry which are not subject to special labelling. With the Jowatherm-Reaktant® MR product group, it will be the first time the adhesives manufacturer is showcasing an extensive portfolio of PUR hot melt adhesives for different applications. At the globally leading trade show for the wood-processing industry, Jowat will be presenting already established products for edgebanding, as well as the latest developments: A newly developed adhesive for the general flat lamination of wood-based panels and sandwich elements. Jowat has been successfully active in the development of alternative technologies for manufacturing PUR hot melt adhesives that are not subject to hazardous material labelling since the early 2000s already. The Jowatherm-Reaktant® MR product group once more demonstrates the technological competence and innovation potential of the adhesives specialist in this field.

Also on schedule for LIGNA, Jowat will be unveiling another milestone in the development of PUR products for solid wood applications and will be presenting a wide-ranging group of certified, liquid one-component PUR prepolymer adhesives of the Jowapur® series for load-bearing glulam. The range includes products for manual to very fast, automated bonding processes. Due to an optimised assembly-pressing time ratio, they can lead to an immediate marked increase in capacity – with no major investments, merely by a simple change of the adhesive.

100 years of Jowat. Since 1919, the globally active adhesives specialist from Detmold has systematically and successfully built on an impressive product diversity, deep industrial understanding, and close customer contact.

Jowat has been represented at the leading trade show since the first LIGNA. This year's participation is headed by the motto "Our word is our bond – since 1919". You can find Jowat from 27 to 31 May in Hannover in hall 12 booth D69, in hall 15 booth A16, and in hall 27 booth D45 (booth focused on Solid Wood Bonding).

Further information

Introducing Jowat

Jowat SE with headquarters in Detmold is one of the leading suppliers of industrial adhesives. These are mainly used in woodworking and furniture manufacture, in the paper and packaging industry, for graphic arts, in the textile, automotive as well as in the electrical industry. The company was founded in 1919 and has manufacturing sites in Germany in Detmold and Elsteraue, plus four other producing subsidiaries, Jowat Corporation in the USA, Jowat Swiss AG, Jowat Manufacturing in Malaysia, and the Jowat Universal Adhesives Australia Pty. Ltd. in Australia. The supplier of all adhesive groups is manufacturing over 90,000 tonnes of adhesives per year, with over 1.200 employees. A global sales structure with 23 subsidiaries plus partner companies is guaranteeing local service with close customer contact.
